**Huazhu Group Limited Announces Preliminary Results for Hotel Operations
in the Fourth Quarter and the Full Year of 2021**

Shanghai, China, January 20, 2022 – Huazhu Group Limited (NASDAQ: HTHT and HKEX: 1179) (“Huazhu”, “we” or “our”), a world-leading hotel group, today announced preliminary results for hotel operations in the fourth quarter (“Q4 2021”) and the full year ended December 31, 2021.

COVID-19 update

For our Legacy-Huazhu business, RevPAR recovery in Q4 2021 was still significantly impacted by several COVID-19 resurgences in China. In terms of monthly breakdown, our RevPAR recovered to 90%, 76%, and 90% of the levels in October, November, and December 2019, respectively. Entering into 2022, we saw that the COVID-19 pandemic was still lingering in several cities and provinces, such as Xi’an, Tianjin and Henan Province, etc. Additionally, the new Omicron variant was also detected recently in several cities in China. More importantly, travelling restrictions are expected to be stricter in Beijing and its surrounding areas in anticipation of the upcoming Beijing Olympic Winter Games. Therefore, all the above factors would increase uncertainties and pressures to our RevPAR recovery in the first quarter of 2022.

After continuous business recovery in Q3 2021 thanks to the progress of vaccination campaign and easing of restrictions, Steigenberger Hotels AG and its subsidiaries (“DH”) in Q4 2021 were impacted by tightened governmental control measures and testing requirements due to the third and fourth waves of the COVID-19 pandemic in European countries. As a result, the recovery trend of DH was disrupted in November 2021, as RevPAR and occupancy numbers declined compared to those in the summer. In terms of vaccination, as of January 18, 2022, approximately 75% of the entire German population has received at least one dose and approximately 72% of the population has been fully vaccinated, and 47% has received the third dose. RevPAR recovery in the near-term is expected to remain under pressure due to the recent Omicron variant. However, we believe that the RevPAR recovery trend will quickly resume once the number of COVID cases start to decline.

Meanwhile, DH continues its effort to implement a comprehensive cash and cash flow improvement program, especially focusing on personnel cost reduction, process optimization and negotiation of further lease waivers. In addition, government subsidy was received in December 2021.
