China Lodging Group, Limited Reports Third Quarter of 2013 Financial Results

- A total of 1,341 hotels or 144,494 hotel rooms in operation as of September 30, 2013
- Net revenues totaled RMB1,146.7 million (US\$187.4 million)¹ for the third quarter of 2013, an increase of 28.3% year-over-year, exceeding the high end of previously announced guidance.
- Net income attributable to China Lodging Group was RMB124.9 million (US\$20.4 million) for the third quarter of 2013, an increase of 30.4% year-over-year. Excluding share-based compensation expenses, adjusted net income attributable to the Company (non-GAAP) was RMB133.8 million (US\$21.9 million) for the third quarter of 2013, an increase of 29.2% year-over-year.
- Adjusted operating margin for the third quarter of 2013 was 15.7%, improving from 14.3% in the same period of 2012.
- Diluted earnings per ADS² were RMB2.00 (US\$0.33) for the third quarter of 2013. Excluding share-based compensation expenses, adjusted diluted earnings per ADS (non-GAAP) was RMB2.14 (US\$0.35) for the third quarter of 2013, an increase of 28.1% year-over-year.
- China Lodging Group expects Q4 net revenues growth of 24% to 26%.

SHANGHAI, China, Nov. 12, 2013 (GLOBE NEWSWIRE) – China Lodging Group, Limited (Nasdaq:HTHT) ("China Lodging Group" or the "Company"), a leading and fast-growing multi-brand hotel group in China, today announced its unaudited financial results for the quarter ended September 30, 2013.

Third Quarter 2013 Operational Highlights

- During the third quarter of 2013, the Company opened 24 net leased ("leased-and-operated") hotels and 98 net manachised ("franchised-and-managed") hotels. As of September 30, 2013, the Company had 538 leased hotels, 777 manachised hotels, and 26 franchised Starway hotels in operation across 232 cities. More than 80% of leased hotels were located in tier-1 and -2 cities. The leased and manachised hotel rooms in operation increased by 29% and 70%, respectively, from a year ago.
- As of September 30, 2013, the Company had 1,165 Hanting Hotels, 56 Ji Hotels, 72 Hi Inns, and 48 Starway Hotels in operation.
- As of September 30, 2013, the Company had 76 leased hotels and 379 manachised hotels contracted or under construction.
- The ADR, which is defined as the average daily rate for all hotels in operation (excluding franchised Starway hotels), was RMB186 in the third quarter of 2013, compared with RMB183 in the third quarter of 2012 and RMB182 in the previous quarter. The year-over-year increase of 1.5% was mainly attributable to a 3.2% increase in same-hotel ADR, partially offset by the city mix shifting toward lower-tier cities. The sequential increase resulted mainly from seasonality.
- The occupancy rate for all hotels in operation (excluding franchised Starway hotels) was 94.1% in the third quarter of 2013, compared with 97.4% in the third quarter of 2012 and 91.3% in the previous quarter. The year-over-year decrease was mainly due to soft economy and an unfavorable Mid-autumn Festival holiday schedule this September. The sequential increase resulted mainly from seasonality.
- RevPAR, defined as revenue per available room for all hotels in operation (excluding franchised Starway hotels), was RMB175 in the third quarter of 2013, compared with RMB178 in the third quarter of 2012 and RMB167 in the previous quarter. The year-over-year decrease was a result of a lower occupancy rate offset by a higher ADR. The sequential increase resulted mainly from seasonality.
- For all hotels which had been in operation for at least 18 months, the same-hotel RevPAR was RMB190 for the third quarter of 2013, compared with RMB188 for the third quarter of 2012, with a 3.2% increase in ADR and a 2.0 percentage-point decrease in occupancy rate. The increase in same-hotel ADR was driven by price increase to enhance yield. The decrease in same-hotel occupancy rate was mainly due to soft economy and an unfavorable Mid-autumn Festival holiday schedule this September.
- As of September 30, 2013, the Company's loyalty program had over 13 million members, who contributed more than 80% of room nights sold during the third quarter of 2013. In the third quarter of 2013, more than 90% of room nights were sold through the Company's own channels.

"We continued our momentum from the first half of the year and are excited to deliver another strong quarter with solid same-hotel RevPAR growth and continuing year-over-year margin expansion. While the relatively soft macro environment, we are able to raise same-hotel ADR by 3% year-over-year in a third consecutive quarter," said Mr. Qi Ji, founder, executive Chairman and Chief Executive Officer of China Lodging Group.

Third Quarter of 2013 Financial Results

(RMB in millions)	Q3 2012	Q2 2013	Q3 2013
Revenues:			
Leased hotels	846,687	963,305	1,066,240

Third Quarter of 2013 Financial Results

Total revenues for the third quarter of 2013 were RMB1,216.1 million (US\$198.7 million), representing a 28.3% year-over-year increase and a 10.8% sequential increase. The year-over-year and sequential increases were primarily due to the Company's continued expansion of its hotel network.

Total revenues from leased hotels for the third quarter of 2013 were RMB1,066.2 million (US\$174.2 million), representing a 25.9% year-over-year

increase and a 10.7% sequential increase.

Total revenues from manachised and franchised hotels for the third quarter of 2013 were RMB149.9 million (US\$24.5 million), representing a 48.4% year-over-year increase and a 12.0% sequential increase.

Net revenues for the third quarter of 2013 were RMB1,146.7 million (US\$187.4 million), representing a 28.3% year-over-year increase and a 10.8% sequential increase.

<u>(RMB in millions)</u>	Q3 2012	Q2 2013	Q3 2013
Operating costs and expenses:			
Hotel operating costs	630,025	746,557	823,214
Selling and marketing expenses	24,316	31,947	37,280
General and administrative expenses	55,734	71,233	62,661
Pre-opening expenses	63,230	55,881	52,438
Total operating costs and expenses	773,305	905,618	975,593

Hotel operating costs for the third quarter of 2013 were RMB823.2 million (US\$134.5 million), compared to RMB630.0 million (US\$100.2 million) for the third quarter of 2012 and RMB746.6 million (US\$121.6million) for the previous quarter, representing a 30.7% and 10.3% increase, respectively. The year-over-year increase in hotel operating costs was mainly driven by the Company's hotel network expansion, especially growth in leased hotels. The average number of leased hotels in operation³ during the third quarter of 2013 increased 31.0% from the same period of 2012 and 5.4% sequentially. Total hotel operating costs excluding share-based compensation expenses (non-GAAP) were RMB821.5 million (US\$134.2 million), representing 71.7% of net revenues, compared to 70.4% for the third quarter in 2012 and 72.0% in the previous quarter. The year-over-year increase in hotel operating costs as a percentage of net revenues was mainly due to the increase in rent as a percentage of net revenues associated with our strategy of newly-opened midscale hotels in higher tier cities, partially offset by revenue mix shift toward higher portion of higher-margin manachised revenue and the cost-saving efforts.

Selling and marketing expenses for the third quarter of 2013 were RMB37.3 million (US\$6.1 million), compared to RMB24.3 million (US\$3.9 million) for the third quarter of 2012 and RMB31.9 million (US\$5.2 million) for the previous quarter. Selling and marketing expenses excluding share-based compensation expenses (non-GAAP) for the third quarter of 2013 were RMB37.0 million (US\$6.1 million), or 3.2% of net revenues, compared to 2.7% for the third quarter of 2012 and 3.1% for the previous quarter. The year-over-year increase in percentage of net revenues was mainly due to higher portion of reservation through third-party agencies.

General and administrative expenses for the third quarter of 2013 were RMB62.7million (US\$10.2 million), compared to RMB55.7 million (US\$8.9 million) for the third quarter of 2012 and RMB71.2 million (US\$11.6 million) for the previous quarter. General and administrative expenses excluding share-based compensation expenses (non-GAAP) for the third quarter of 2013 were RMB55.7 million (US\$9.1 million), representing 4.8% of the net revenues for the third quarter of 2013, compared with 5.5% of the net revenues for the third quarter of 2012 and 6.3% for the previous quarter. The sequential decrease in percentage of net revenue was mainly due to the receipt of government subsidy and the year-over-year decrease in percentage of net revenue was mainly due to benefit from economies of scale.

Pre-opening expenses for the third quarter of 2013 were RMB52.4 million (US\$8.6 million), representing a 17.1% year-over-year decrease and 6.2% sequential decrease. The pre-opening expenses as a percentage of net revenues decreased 2.5 percentage points year-over-year due to enlarged revenue base and shortened construction cycle for leased hotels before hotel openings.

Income from operations for the third quarter of 2013 was RMB171.1 million (US\$28.0 million), compared to RMB120.3 million (US\$19.1 million) for the third quarter of 2012 and RMB129.2 million (US\$21.1 million) for the previous quarter. Excluding share-based compensation expenses, adjusted income from operations (non-GAAP) for the third quarter of 2013 was RMB180.0 million (US\$29.4 million), compared with RMB128.1 million (US\$20.4 million) for the third quarter of 2012 and RMB136.9 million (US\$22.3 million) for the previous quarter.

Operating margin for the third quarter of 2013 was 15.0%, up from 13.5% for the third quarter of 2012 and 12.5% for the previous quarter. Excluding share-based compensation expenses, adjusted operating margin for the third quarter of 2013 was 15.7%, up from 14.3% for the third quarter of 2012 and 13.2% for the previous quarter. The year-on-year and sequential increases in adjusted operating margin were mainly attributable to higher portion of high-margin manachise business, reduction of pre-opening expenses and the benefits from economies of scale.

Net income attributable to China Lodging Group, Limited for the third quarter of 2013 was RMB124.9 million (US\$20.4 million), compared to RMB95.8 million (US\$15.2 million) for the third quarter of 2012 and RMB96.3 million (US\$15.7 million) for the previous quarter. Excluding share-based compensation expenses, adjusted net income attributable to China Lodging Group, Limited (non-GAAP) for the third quarter of 2013 was RMB133.8 million (US\$21.9 million), compared to adjusted net income attributable to China Lodging Group, Limited of RMB103.6 million (US\$16.5 million) for the third quarter of 2012 and RMB104.0 million (US\$16.9 million) for the previous quarter.

Basic and diluted earnings per share/ADS. For the third quarter of 2013, basic earnings per share was RMB0.51 (US\$0.08) and diluted earnings per share was RMB0.50 (US\$0.08); basic earnings per ADS was RMB2.04 (US\$0.33) and diluted earnings per ADS was RMB2.00 (US\$0.33). Excluding share-based compensation expenses, adjusted basic earnings per share (non-GAAP) was RMB0.55 (US\$0.09) and adjusted diluted earnings per share (non-GAAP) for the third quarter of 2013 was RMB0.54 (US\$0.09), and adjusted basic earnings per ADS (non-GAAP) was RMB2.18 (US\$0.36) and adjusted diluted earnings per ADS (non-GAAP) was RMB2.14 (US\$0.35).

EBITDA (non-GAAP)⁴ for the third quarter of 2013 was RMB289.8 million (US\$47.4 million), up 38.4% from RMB209.3 million (US\$33.3million) for the third quarter of 2012 and 19.4% from RMB242.7 million (US\$39.5 million) for the previous quarter. Excluding pre-opening expenses and share-based compensation expenses, adjusted EBITDA from operating hotels (non-GAAP) for the third quarter of 2013 was RMB351.2 million (US\$57.4 million), representing an increase of 25.3% year-over-year and an increase of 14.7% sequentially.

Hotel income (non-GAAP), which is the difference between net revenues and hotel operating costs, was RMB323.5 million (US\$52.9 million) for the third quarter of 2013, compared with RMB263.6 million (US\$41.9 million) for the third quarter of 2012 and RMB288.3 million (US\$47.0 million) for the previous quarter. The year-over-year and sequential increases of hotel income (non-GAAP) were mainly attributable to the enlarged manachised hotel network and increased number of mature leased hotels in the portfolio. For leased hotels in operation for at least six months, the

hotel income (non-GAAP) was RMB233.5 million (US\$38.2 million) during the third quarter of 2013, or 25% of net revenues derived from those hotels. Leased hotels in operation for less than six months accounted for 10% of leased room nights available for sale in the third quarter of 2013. Those hotels derived a hotel loss (non-GAAP) of RMB23.9 million (US\$3.9 million), or 33% of net revenues derived from those hotels this quarter, mainly due to lower revenue achievement of those hotels during their ramp-up stage in new cities. For manachised and franchised hotels, the hotel income (non-GAAP) was RMB113.9 million (US\$18.6 million), or 81% of net revenue derived from those hotels.

Cash flow. Net operating cash flow for the third quarter of 2013 was RMB350.3 million (US\$57.2 million). Cash spent on the purchase of property and equipment, purchase of intangible assets, purchase of short term investment and acquisitions, which are part of investing cash flow, was RMB302.1million (US\$49.4million).

Cash and cash equivalents, restricted cash, and short-term investment. As of September 30, 2013, the Company had a total balance of cash and cash equivalents, restricted cash and short-term investment of RMB370.4 million (US\$60.5 million).

Loans and other debt financing

As of September 30, 2013, the Company had a short-term loan balance of RMB1.2 million (US\$0.2 million) and total credit facility available to the Company of RMB699 million.

Guidance for Fourth Quarter of 2013

The Company expects to achieve net revenues in the range of RMB1,095 to 1,113 million in the fourth quarter of 2013, representing a 24% to 26% growth year-over-year.

The above forecast reflects the Company's current and preliminary view, which is subject to change.

Appointment of Chief Strategy Officer

China Lodging Group announced that Ms. Jenny Zhang accepted the new appointment of Chief Strategy Officer, on top of her existing role as Chief Financial Officer. As the Chief Strategy Officer, Ms. Zhang shall be responsible for incubating and developing the company's early-stage brands, including Hi Inn, Starway, Manxin and Joya, and leading other strategic initiatives.

Executive Comments

"In the past two years, China Lodging has transformed from a lease-dominated economy hotel chain to a wide-spectrum hotel brand and management company. With the introduction of Manxin, an upscale resort brand, the company now has six distinctive brands, covering economy, mid-scale and up-scale markets. Each of the brands represents a unique growth opportunity. We have accumulated rich experience in combining insights of consumer needs, operational excellence and marketing capability to create and roll out new products. The appointment of Jenny as the Chief Strategy Officer demonstrated the Company's long-term commitment to new brand development. Another core competence of the company is to manage hotels in an efficient and innovative way, through established platforms and well-engineered processes, which was best manifested in the operation of Hanting hotels. Our management platforms also proved effective in supporting younger brands to roll out their management services to franchisees. In the third quarter of 2013, manachise business accounted for 12% of our revenue, up from 9% two years ago. We expect more than 80% of new hotels opened in 2014 will be under the manachised model." commented Mr. Qi Ji, founder, executive Chairman and Chief Executive Officer of China Lodging Group. "Pillared by our brand development and hotel management capabilities, China Lodging has successfully transformed its business model into a high-growth, high-resilience and asset-light one. We believe that this model will enable us to grow into a leading hotel group globally, riding upon the rising wealth and increasing demand for travel in China."

The conference call will also be webcast live over the Internet and can be accessed by all interested parties at the Company's website, <http://ir.huazhu.com>.

Use of Non-GAAP Financial Measures

To supplement the Company's unaudited consolidated financial results presented in accordance with U.S. GAAP, the Company uses the following non-GAAP measures defined as non-GAAP financial measures by the SEC: hotel operating costs excluding share-based compensation expenses; general and administrative expenses excluding share-based compensation expenses; selling expenses excluding share-based compensation expenses; adjusted income from operations excluding share-based compensation expenses; adjusted net income attributable to China Lodging Group, Limited excluding share-based compensation expenses; adjusted basic and diluted earnings per share and per ADS excluding share-based compensation expenses; EBITDA; adjusted EBITDA from operating hotels excluding pre-opening expenses and share-based compensation expenses; and hotel income. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. For more information on these non-GAAP financial measures, please see the tables captioned "Reconciliations of GAAP and non-GAAP results" set forth towards the end of this release. The Company believes that these non-GAAP financial measures provide meaningful supplemental information regarding Company performance by excluding share-based compensation expenses that may not be indicative of Company operating performance. The Company believes that both management and investors benefit from referring to these non-GAAP financial measures in assessing Company performance and when planning and forecasting future periods. These non-GAAP financial measures also facilitate management's internal comparisons to the Company's historical performance. The Company believes these non-GAAP financial measures are also useful to investors in allowing for greater transparency with respect to supplemental information used regularly by Company management in financial and operational decision-making. A limitation of using

non-GAAP financial measures excluding share-based compensation expenses is that share-based compensation expenses have been – and will continue to be – a significant recurring expense in the Company's business. Management compensates for these limitations by providing specific information regarding the GAAP amounts excluded from each non-GAAP measure. The tables towards the end of this release have more details on the reconciliations between GAAP financial measures that are most directly comparable to non-GAAP financial measures.

The Company believes that EBITDA is a useful financial metric to assess the operating and financial performance before the impact of investing and financing transactions and income taxes, given the significant investments that the Company has made in leasehold improvements, depreciation and amortization expense that comprise a significant portion of the Company's cost structure. In addition, the Company believes that EBITDA is widely used by other companies in the lodging industry and may be used by investors as a measure of financial performance. The Company believes that EBITDA will provide investors with a useful tool for comparability between periods because it eliminates depreciation and amortization expense attributable to capital expenditures. The Company also uses adjusted EBITDA from operating hotels, which is defined as EBITDA before pre-opening expenses and share-based compensation expenses, to assess operating results of the hotels in operation. The Company believes that the exclusion of pre-opening expenses and share-based compensation expenses, a portion of which is non-cash rental expenses, helps facilitate year-on-year comparison of the results of operations as the number of hotels in the development stage may vary significantly from year to year. Therefore, the Company believes adjusted EBITDA from operating hotels more closely reflects the performance capability of hotels currently in operation. The presentation of EBITDA and adjusted EBITDA from operating hotels should not be construed as an indication that the Company's future results will be unaffected by other charges and gains considered to be outside the ordinary course of business.

The use of EBITDA and adjusted EBITDA from operating hotels has certain limitations. Depreciation and amortization expense for various long-term assets, income tax, interest income and interest expense have been and will be incurred and are not reflected in the presentation of EBITDA. Pre-opening expenses and share-based compensation expenses have been and will be incurred and are not reflected in the presentation of adjusted EBITDA from operating hotels. Each of these items should also be considered in the overall evaluation of the results. The Company compensates for these limitations by providing the relevant disclosure of the depreciation and amortization, interest income, interest expense, income tax expense, pre-opening expenses, share-based compensation expenses and other relevant items both in the reconciliations to the U.S. GAAP financial measures and in the consolidated financial statements, all of which should be considered when evaluating the performance of the Company.

The terms EBITDA and adjusted EBITDA from operating hotels are not defined under U.S. GAAP, and neither EBITDA nor adjusted EBITDA from operating hotels is a measure of net income, operating income, operating performance or liquidity presented in accordance with U.S. GAAP. When assessing the operating and financial performance, investors should not consider these data in isolation or as a substitute for the Company's net income, operating income or any other operating performance measure that is calculated in accordance with U.S. GAAP. In addition, the Company's EBITDA or adjusted EBITDA from operating hotels may not be comparable to EBITDA or adjusted EBITDA from operating hotels – or similarly titled measures utilized by other companies – since such other companies may not calculate EBITDA or adjusted EBITDA from operating hotels in the same manner as the Company does.

To monitor performance of hotels at different maturity level and of different form, the Company also tracks hotel income, which is the difference between net revenues and hotel operating costs.

Reconciliations of the Company's non-GAAP financial measures, including EBITDA, adjusted EBITDA from operating hotels, and hotel income, to the consolidated statement of comprehensive income (loss) information are included at the end of this press release.
