Jin Hui, CEO of H World commented: "We are pleased to announce that the Group and Legacy-Huazhu has achieved a remarkable 10,000-hotel milestone during the second quarter of 2024. This milestone also marked a new start for the Group. We believe the Chinese market still presents huge opportunities and growth potentials, and we are ready to scale new heights, moving from 10,000+ hotels in over 1,000 cities to 20,000+ hotels in over 2,000 cities. In the second quarter of 2024, we continued our fast high-quality network growth, opening 567 new hotels in China. While Legacy-Huazhu's blended RevPAR declined by 2% year-over-year in the second quarter due mainly to a high ADR base in the same period last year, our occupancy rate increased by 0.7 percentage-point year-over-year despite our continued rapid rate of hotel network expansion. In spite of the near-term volatilities in macro and consumption, China's overall travel demand remains robust. As for Legacy-Huazhu, we will continue focusing on product upgrades, service excellence, and membership programs to enhance our core competitive edges and drive a long-term sustainable RevPAR growth."

"Regarding our business outside China, our Legacy-DH recorded a 4.5% year-over-year blended RevPAR increase in the second quarter of 2024. We are committed to extend our global footprint, seeking growth opportunities in the Asia-Pacific (APAC) and the Middle East."

#### **Shareholder return plan**

On July 23 2024, the Company's board of directors (the "Board") has announced a three-year shareholder return plan with an aggregate amount of distribution that may be made to the Company's shareholders of up to US\$2 billion, effective from July 23, 2024. Under the shareholder return plan, the Board has the sole discretion to: (i) declare and distribute ordinary dividends semi-annually, the aggregate amount of which for each financial year shall be no less than 60% of the Company's net income in such financial year, and (ii) declare and distribute, from time to time, special dividends and/or make repurchases of the American Depositary Shares of the Company ("ADS(s)") pursuant to the share repurchase program, considering the financial position of the Company.

#### **Semi-annual dividend**

The Board has declared a cash dividend for the first half of 2024 in the aggregate amount of approximately US\$200 million, of US\$0.063 per ordinary share, or US\$0.63 per ADS.

#### **Share repurchase program**

On July 23 2024, the Board approved a five-year share repurchase program of ADSs with an aggregate amount of up to US\$1 billion, effective from August 21, 2024. This share repurchase program replaces the Company's share repurchase program previously approved and adopted on August 21, 2019 with an aggregate amount of up to US\$750 million.

#### **Guidance**

For the third quarter of 2024, H World expects its revenue growth to be in the range of 2%-5% compared to the third quarter of 2023, or in the range of 1%-4% excluding DH.

We revise up our hotel opening guidance for the full year of 2024, expecting to open over 2,200 hotels, and up from our previous guidance of around 1,800 hotels.

The above forecast reflects the Company's current and preliminary view, which is subject to change.

#### **Use of Non-GAAP Financial Measures**

To supplement the Company's unaudited consolidated financial results presented in accordance with U.S. Generally-Accepted Accounting Principles ("GAAP"), the Company uses the following non-GAAP measures defined as non-GAAP financial measures by the U.S. Securities and Exchange Commission ("SEC"): adjusted net income (loss) attributable to H World Group Limited excluding share-based compensation expenses, gain (loss) from fair value changes of equity securities, foreign exchange gain (loss), net and gain (loss) on disposal of investments; adjusted basic and diluted earnings (losses) per share/ADS excluding share-based compensation expenses, gain (loss) from fair value changes of equity securities, foreign exchange gain (loss), net and gain (loss) on disposal of investments; EBITDA; adjusted EBITDA excluding share-based compensation expenses, gain (loss) from fair value changes of equity securities, foreign exchange gain (loss), net and gain (loss) on disposal of investments. The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. For more information on these non-GAAP financial measures, please see the table captioned "Unaudited Reconciliations of GAAP and non-GAAP Results" set forth at the end of this release. The Company believes that these non-GAAP financial measures provide meaningful supplemental information regarding Company performance by excluding share-based compensation expenses, gain (loss) from fair value changes of equity securities, foreign exchange gain (loss), net and gain (loss) on disposal of investments that may not be indicative of Company operating performance. The Company believes that both management and investors benefit from referring to these non-GAAP financial measures in assessing Company performance and when planning and forecasting future periods. These non-GAAP financial measures also facilitate management's internal comparisons to the Company's historical performance. The Company believes these non-GAAP financial measures are also useful to investors in allowing for greater transparency with respect to supplemental information used regularly by Company management in financial and operational decision-making. A limitation of using non-GAAP financial measures excluding share-based compensation expenses, gain (loss) from fair value changes of equity securities, foreign exchange gain (loss), net and gain (loss) on disposal of investments is that share-based compensation expenses, gain (loss) from fair value changes of equity securities, foreign exchange gain (loss), net and gain (loss) on disposal of investments have been and may continue to be significant and recurring in the Company's business. Management compensates for these limitations by providing specific information regarding the GAAP amounts excluded from each non-GAAP measure. The accompanying tables have more details on the reconciliations between GAAP financial measures that are most directly comparable to non-GAAP financial measures.

The Company believes that EBITDA is a useful financial metric to assess the operating and financial performance before the impact of investing and financing transactions and income taxes, given the significant investments that the Company has made in leasehold improvements, depreciation and amortization expense that comprise a significant portion of the Company's cost structure. In addition, the Company believes that EBITDA is widely used by other companies in the lodging industry and may be used by investors as a measure of financial performance. The Company believes that EBITDA information provides investors with a useful tool for comparability between periods because it excludes depreciation and amortization expense attributable to capital expenditures. The Company also uses adjusted EBITDA to assess operating results of its hotels in operation. The

Company believes that the exclusion of share-based compensation expenses, gain (loss) from fair value changes of equity securities, foreign exchange gain (loss), net and gain (loss) on disposal of investments helps facilitate year-over-year comparisons of the results of operations as the share-based compensation expenses, gain (loss) from fair value changes of equity securities, foreign exchange gain (loss), net and gain (loss) on disposal of investments may not be indicative of Company operating performance.

Therefore, the Company believes adjusted EBITDA more closely reflects the financial performance capability of our hotels. The presentation of EBITDA and adjusted EBITDA should not be construed as an indication that the Company's future results will be unaffected by other charges and gains considered to be outside the ordinary course of business.

The use of EBITDA and adjusted EBITDA has certain limitations. Depreciation and amortization expense for various long-term assets (including land use rights), income tax, interest expense and interest income have been and will be incurred and are not reflected in the presentation of EBITDA. Share-based compensation expenses, gain (loss) from fair value changes of equity securities, foreign exchange gain (loss), net and gain (loss) on disposal of investments have been and will be incurred and are not reflected in the presentation of adjusted EBITDA. Each of these items should also be considered in the overall evaluation of the results. The Company compensates for these limitations by providing the relevant disclosure of depreciation and amortization, interest income, interest expense, income tax expense, share-based compensation expenses, gain (loss) from fair value changes of equity securities, foreign exchange gain (loss), net and gain (loss) on disposal of investments all in the reconciliations to the U.S. GAAP financial measures and in the consolidated financial statements, all of which should be considered when evaluating the performance of the Company.

The terms EBITDA and adjusted EBITDA are not defined under U.S. GAAP, and neither EBITDA nor adjusted EBITDA is a measure of net income, operating income, operating performance or liquidity presented in accordance with U.S. GAAP. When assessing the operating and financial performance, investors should not consider these data in isolation or as a substitute for the Company's net income, operating income or any other operating performance measure that is calculated in accordance with U.S. GAAP. In addition, the Company's EBITDA or adjusted EBITDA may not be comparable to EBITDA or adjusted EBITDA or similarly titled measures utilized by other companies since such other companies may not calculate EBITDA or adjusted EBITDA in the same manner as the Company does.

Reconciliations of the Company's non-GAAP financial measures, including EBITDA and adjusted EBITDA, to the consolidated statement of operations information are included at the end of this press release.
